DETAILED ACTION

1. This Office action is in response to Applicant's Amendment filed 07/25/2008.
Claims 1, 19, and 23 are amended.
Claims 3, 9-18, 25, and 31-38 are canceled.
Claims 1-2, 4-8, 19-24, and 26-30 remain for examination.

Response to Arguments

2. Applicant's arguments, see Amendment, filed 07/25/2008, with respect to Claims 1-2, 4-8, 19-24, and 26-30 have been fully considered and are persuasive.

Allowable Subject Matter

3. Claims 1-2, 4-8, 19-24, and 26-30 are allowed.

The following is an examiner's statement of reasons for allowance: Any prior art of the record does not teach or suggest alone or in combination with other prior art of record the specific features required in the independent Claims 1, 19 and 23 such as "generating one or more first cryptographic keys associated with a first namespace of a first domain, the first domain being a member of a set of centralized hierarchical domains of namespaces; creating a first authority using one of the one or more first cryptographic keys; generating one or more next cryptographic keys associated with a next higher-level namespace, the next higher-level namespace at a higher level domain than the first namespace, the higher level domain being another member of the set of

centralized hierarchical domains of namespaces; creating a next higher-level authority using one of the one or more next cryptographic keys; and publishing, using the peer-to-peer type resolution, an association between the first and the next higher-level namespaces, the association comprising: a signed resolution that resolves a unique name of the first namespace to the first authority, the signed resolution signed with the one of the one or more next cryptographic keys and the unique name including the next higher-level authority and the first namespace" recited in the independent Claim 1. The prior art taken either single or in combination fails to anticipate or fairly suggest the above limitations of applicant's independent claims in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Therefore, the claimed invention is considered to be in condition for allowance as being novel and non-obvious over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
